Dear Reader,

If you are learning English this book hopes to help you in how to say English words. It is a book about numbers and animal groups. The animal kingdom is made up of many groups, nine of which are looked at here.

A variety of words to do with numbers are also listed at the back of the book. There is also a very simple pronunciation guide, which will also be interactive with the web site. As you read the book try to answer the following questions.

Happy reading!

The Editor.

1)What is the animal called?

2)How many animals are there in the group?

3)How many insects are there?

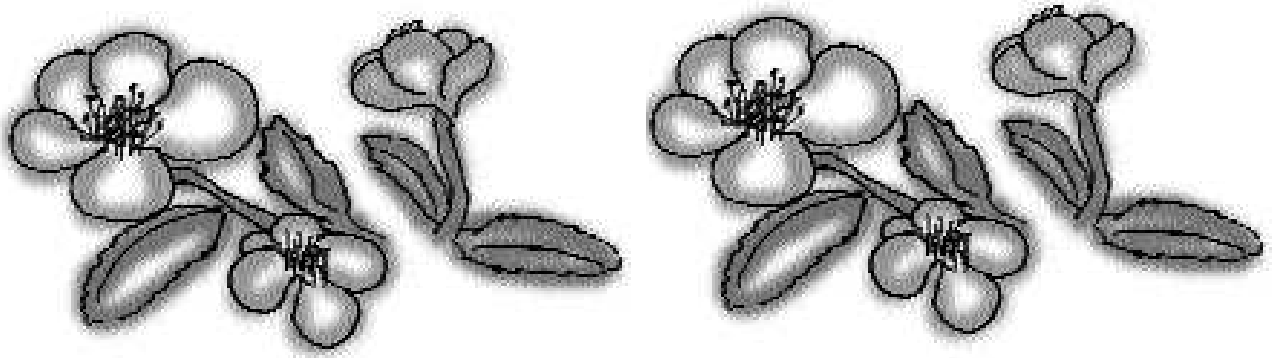

4) How many legs does the animal have?

		1,000,000 million

After numbers in English you have to use the plural form of the noun

- one animal kingdom
- two dinosaurs
- three fish
- four amphibians
- five reptiles
- six birds
- seven mammals
- eight sea animals
- nine land animals
- ten insects

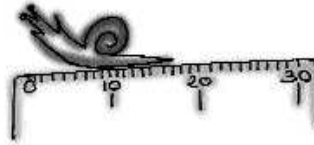

Measuring Things

Length

10 millimetres (mm) = 1 centimetre (cm)

100 centimetres (cm) = 1 metre (m)

1000 metres (m) = 1 kilometre (km)

Area

100 square metres (m²) = 1 square kilometre (km²)

12 inches (") = 1 foot (')

3 yards (') = 1 yard

1760 yards = 1 mile

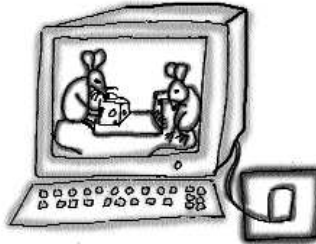

Weight

1000 gram (g) = 1 kilogram (kg)

16 ounces (oz) = 1 pound (lb)

14 pounds (lb) = 1 stone

160 stones = 1 tonne

Volume Unit

1000 millilitres (ml) = 1 litre (l)

1 cubic metre (m³) = 1000 litres (l)

8 pints = 1 gallon

Binary Numbers

1000 bytes = 1 kilobyte

1,000,000 bytes = 1 megabyte

1,000,000,000 bytes = 1 gigabyte

Pronunciation Guide

This book hopes to inspire you to learn to speak English. It is also a fun book about numbers and about some of the animal groups that make up the animal kingdom.
