Dear Reader,

If you are learning Welsh this book hopes to help you in how to say Welsh words. It is a book about numbers and animal groups. The animal kingdom is made up of many groups, nine of which are looked at here.

There are two number systems in Welsh. In this book only the newer decimal system is used. A variety of words to do with numbers are also listed at the back of the book. There is also a very simple pronunciation guide, which will also be interactive with the web site. As you read the book try to answer the questions.

Happy reading!

The Editor.

After numbers in Welsh you only need to use the singular form of the noun.

un byd yr anifeiliaid	one animal kingdom
dau deinôsr	two dinosaurs
tri pysgodyn	three fish
pedwar amffibia	four amphibians
pump ymlusgiad	five reptiles
chwech aderyn	six birds
saith mamal	seven mammals
wyth anifail môr	eight sea animals
naw anifail tir	nine land animals
deg trychfil	ten insects

*Please note in Welsh if the noun following a number is feminine then for 1,2,3 and 4 the following numbers are used:

Number	Masculine	Feminine
1	un	un**
2	dau**	dwy**
3	tri	tair
4	pedwar	pedair

** Words following these also take 'Type A' letter change as described in 'Alffabet Anifeiliaid'. Words beginning with d for example change to dd.

*** Note that 5 and 6 drop their final letter before a noun.
